

# Decanter

Decanter is three-phase separation, can achieve a good solid-liquid separation effect. Horizontal type spiral precipitated centrifugal machine is called horizontal type spiral centrifugal machine for short. It is a high efficiency horizontal type spiral centrifugal equipment for discharging and separation and precipitation.

## BENEFITS

- 1, Good adaptability
- 2, High degree of automation
- 3, Good manufacturability
- 4, Complete and reliable safety protection device
- 5, Attractive appearance

Type	Bowl diameter (mm)	Bowl length/ Bowl diameter	Bowl speed (r/min)	Main Power (Kw)
XLW180	180	2.5-720	6000	3-5.5
XLW260	260	3.0-4	5000	7.5-11
XLW355	355	2-4.5	4000	11-30
XLW420	420	3-4.1	3600	18.5-37
XLW450	450	2-4.4	3600	18.5-37
XLW480	480	2-4.2	3200	18.5-45
XLW500	500	2-4.2	3200	18.5-55
XLW530	530	2-4	3200	22-55
XLW580	580	2-4	2800	30-55
XLW620	620	2-4	2800	37-110
XLW760	760	2-3.5	2500	55-132
